DETAILED ACTION

This action is responsive to the amendment filed 10-02-2006, which has been entered.

Claims 1-22 are allowed.

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art fails to anticipate or render obvious the combination of a drive clutch for a CVT as set forth in claims 1, 6, 2, 19 and 22, and most significantly, claims 1, 12 and 19, require a motor rotatable connected to the input shaft and rotatable with respect to the rotation of the shaft, such that the centrifugal weights are connected to the motor so as to be rotated by the motor independently of the rotating shaft. Claim 6 most significantly requires the use of an actuator to rotate the centrifugal weights independently of the input shaft. Claim 22, requires means operable coupled to the input shaft for rotating the centrifugal weights system independently of the rotation of the input shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
